

Determination of ECTS Points

1. Student Data

Name of the student: _____

Matriculation number¹: _____

Level of Studies (Bachelor/Master): _____

Academic year: _____

Semester (summer / winter): _____

2. Dates of the Courses

Course Title ²	Course ID ³	Name of the lecturer	Number of ECTS Points ⁴	Signature of Lecturer ⁵

I hereby confirm that I have included all my courses in this document and that I will inform the incoming exchange department immediately should changes occur.

I understand that failure to do so will result in an incomplete Transcript of Records.

Bayreuth, date _____

Signature Student

Notice: Please submit this document to the International Office (incoming-exchange@uni-bayreuth.de) after obtaining all signatures.

Explanation

1: Seven-digit number sequence. You will find it on your student card.

2: Please enter the title of the course as written in CampusOnline/cmlife.

3: Please enter the numeric course ID.

4: Please contact the lecturer of the course to determine the number of ECTS you will receive for your performance if you pass.

5: Since exchange students in CampusOnline run as program students and are not enrolled in regular courses of study, no examination regulations are registered with them. Therefore, in most cases, no automatic allocation of ECTS points can take place. At the end of the semester, all credit points have to be checked individually with the lecturer for each student and completed manually in CampusOnline. In order to facilitate this process in the future, we ask you to indicate the credit points agreed upon with the student. After passing the exam and registration of the result in CampusOnline, the International Office will enter the missing points according to this agreement. Digital signatures are accepted.

Notice: Please submit this document to the International Office (incoming-exchange@uni-bayreuth.de) after obtaining all signatures.
